

Electric water heating

Off-peak water heating

Electric rate: 5.35¢/kWh - Winter
5.0¢/kWh - Summer

Get yourself in plenty of hot water!

Lake Country Power's off-peak water heating program allows you to heat your water for eight hours each day during "off-peak" overnight hours. The water heating system has sufficient storage capacity to supply your hot water needs during the 16-hour "on-peak" period.

Lake Country Power requires a water heater of at least 100 gallons or more to participate in the program.

Marathon water heaters feature:

- Innovative shape and design
- Tough molded outer shell resists dents and scratches
- Seamless, blow-molded polybutylene that's impervious to rust & corrosion
- Envirofoam® insulation free of ozone-depleting CFCs and HCFCs, so it saves the planet and saves energy
